UM'S UNIVERSITY CENTER EARNS KUDOS FROM INTERNATIONAL COLLEGE ASSOCIATION

MISSOULA —

The University Center at The University of Montana is featured in a new CD-ROM titled "College Union Facilities: A Reference Guide to Outstanding College Union Facilities."

Produced by the Association of College Unions International, the CD-ROM contains floor plans, photographs, construction specifications and more about 17 college unions from around the world. The reference guide will be sold to campuses needing direction about remodeling or building college union facilities.

The University Center was selected for the guide because of its distinctive tropical-garden atrium and the quality of renovations to the first and second floors, which were completed in 1996. Additional third-floor renovations will be completed in April.
